Bus nr. 350, 5A, 4A, 66 og 69

Learn Danish Quick and Easy - When it Suits You!

# IA Online

**Danish classes targeted for people who want to learn Danish online, quickly and effectively.**

- Are you busy studying or working during the week?
- Do you live a long way from a Language centre?
- Do you travel a lot?
- Do you wish to plan on your own when and where you want to learn Danish?

## **Tuition and materials**

IA-online are Danish classes that combine organisational flexibility with a structured and substantial syllabus.

## **IA-Online are Danish classes with a focus on communication and pronunciation:**

- Oral and written communication on the Internet:  
Web conferences, blogs, chat-room, e-mails and more
- Specialised pronunciation material

## **IA-online is learning by using specialised multi-media material:**

Films, IT programmes, sound and pronunciation CDs, books, and translations that give you Danish linguistic competences including pronunciation, vocabulary, free speech, listening, writing, and grammar.

A set curriculum covering all the primary Danish linguistic competences combined with an organizational form that focuses on your needs makes it exciting, challenging and effective learning Danish online.

## **Structure and time needed**

A module in IA-online stretches over 10 to 12 weeks with a weekly Web-conference:

- Web-conference: 45 minutes pr. week
- Web activities and preparation: 5-6 hours pr. week

The module begins with an introductory meeting where you meet your teacher and receive information plus learning material.

## **Module tests/Danish exam**

Each class ends with one of the state authorized module tests. This includes the exam after module 5, “Prøve i Dansk 3” and the exam after module 6, “Studieprøven”.

## **Technical equipment**

For you to be able to participate in IA-online classes you need a good computer, a quick Internet connection, a Web-camera and a headset.

## **Admission**

You are required to invest time and energy and be able to work both independently and intensively.
